

The XDA/Android podcast will bring you the best news each week from the perspective of the XDA team, r/android mods, admins and users. Each week you can find our latest episode here, on [Youtube](#) , [Pocketcasts](#) and on your favorite podcast app through the RSS feed: <http://www.buzzsprout.com/49234.rss>

In this episode, the team discusses the latest news from CES 2016 including the rise of the Internet of Things, the new details surrounding the Snapdragon 820, the new breed of affordable smartphones and some psychedelic experiences — rendered in Virtual Reality!

Today's cast includes:
