

Xiaomi has permanently dropped the price of its Mi Pad tablet in India. Those interested can now pick up the device for INR 10,999 (\$162) instead of the previous INR 12,999 (\$191). The Mi Pad has a 7.9-inch 2048x1536 resolution display, NVIDIA Tegra K1 processor, 2GB RAM, and 16GB storage with microSD. It is one of the better specced tablets on the market. The previous price was already quite low and with the discount it is now a complete steal, provided you are okay with MIUI. The company has no plans yet of launching the newer Mi Pad 2 in the...
